# CRITERION®

CHEMTREC's Lithium Battery Test Summary Service

As lithium battery regulations become more complex, meeting those regulations is becoming more challenging. This means gathering, managing, and making use of necessary information throughout the supply chain could mean a lot more work, and cost, for your company. CRITERION helps companies centralize, organize, access, and distribute lithium battery test summaries as outlined by UN 38.3.

KEY FEATURES & BENEFITS

- ◆ Securely upload and download test summaries

- ◆ Acquire, manage and distribute thousands of test summaries

- ◆ Customize account to meet your company needs

- ◆ Ability to use a service link that can be added to your company websites for easy test summary distribution

- ◆ Request CHEMTREC to source needed test summaries

- ◆ Easily share information between everyone in the supply chain with one central database

- ◆ Minimize corporate burdens by having CHEMTREC respond to test summary requests
