

Emergency Response Lithium Battery Service

Are you looking for a way to comply with safety regulations for shipping lithium batteries?

Registering for CHEMTREC's Lithium Battery Service allows you to use the CHEMTREC emergency phone number on shipping documents, SDS, lithium battery marks and other hazard communication labels. You can also purchase lithium battery labels through our exclusive supplier, Labelmaster.

Our 24/7 emergency call center can help you comply with government regulations, reduce risk and internal burdens so your organization can continue to succeed.

Key Features

- ◆ Access to CHEMTREC's 24/7 Emergency Call Center staffed by trained and experienced specialists
- ◆ Helps you comply with US DOT (49 CFR § 172.604) and international regulations
- ◆ Access to regulatory information for major countries around the world
- ◆ Instant access to medical professionals and toxicologists for human and animal exposures
- ◆ Immediate notification of all incidents involving your shipments
- ◆ USA & Canada, Multi-Country and Worldwide service options
