

For the past 55 years, CHEMTREC's Emergency Operations Center has operated on a 24-hour basis, seven days a week, providing emergency response information wherever hazardous materials are manufactured, stored, transported, or used.

Operating globally, CHEMTREC has offices and strategic partners in major regions, on-the-ground knowledge of local regulations, understanding of local nuances, and appreciation of cultural sensitivities.

Our services save organizations time and money, help them meet their Environmental, Social, and Governance (ESG) commitments, preserve their reputations, and mitigate the financial consequences of non-compliance or inadequate practices.

Why Register with CHEMTREC?

Protect your brand and organization's reputation

Minimize financial exposure

Mitigate impact on health and environment

Plan for disaster recovery and business continuity

Provide critical support for supply chain partners and customers

55+ YEARS
Assisting the Hazmat and Dangerous Goods Industry

Our Services

Emergency Response

- 24/7 Phone Number
- Incident Report Distribution
- Cleanup and Remediation
- Waste Management Solutions

Regulatory authorities require hazardous materials documentation, including SDSs, labels, and transport papers (e.g., 49 CFR 172.604), to list a 24-hour emergency phone number. Our emergency response services include 24/7 information support for hazmat shipments, incident report distribution, cleanup and remediation, and waste management solutions.

Safety Data Sheet Solutions

- Authoring
- Access
- Distribution

Create, update, and manage your Safety Data Sheets (SDS) with CHEMTREC. Access your SDS anytime on desktop or mobile, and let us manage your SDS library and distribute copies to your authorized partners as needed.

Battery Compliance

- 24/7 Emergency Phone Number
- CRITERION® Battery Test Summary Service
- Online Training
- Safety Data Sheets

As lithium battery use increases across industries, so does the risk of incidents. CHEMTREC helps organizations stay compliant with current battery regulations and prepared for future requirements.

Training Solutions

- Hazmat Training (DOT, IATA, IMDG)
- OSHA (HazCom, HAZWOPER 8-Hour)
- EPA RCRA
- Shipping Lithium Battery & Cell
- Incident and Crisis Principles

Help companies meet compliance and safety standards through flexible, self paced, interactive online courses. With our business solutions you can license or subscribe to our training allowing organizations to easily scale training across teams while delivering a consistent, high quality learning experience.

Consulting Solutions

- Incident Preparedness
- Risk Assessment and Prevention
- Response and Recovery Support

Our services help build resilient people and organizations that can anticipate, prevent, and contain incidents early.
